

Washington, DC – Today, U.S. Congresswoman Gwen Moore (D-Milwaukee) made the following statement after House Republicans introduced their legislative agenda:

“Don’t be fooled – there’s nothing new about this.

“Tax cuts for millionaires and billionaires and breaks for big businesses didn’t create jobs over the last 10 years.□ Why would we think it would be any different this time?

“Government has a rightful role to protect consumers from greed and fraud, but this agenda gives power back to corporations.□ We’ve had enough of that – we know right where it leads us.”
